

TECHNICAL DATA SHEET

EcoGuard™ Procedure Mask

EcoGuard™ Procedure Mask is made to provide healthcare practitioners with the best protection and constructed with a breathable high filtration filter for comfortable use. Our Procedure Masks combine a unique fluid-resistant middle layer, with an ultra soft cellulose inner lining to provide superb breathability without compromising safety. EcoGuard™ Procedure Mask is latex free and made with hypoallergenic lining material made especially for sensitive skin. It will not lint, tear, shred, and void of dyes, inks, chemicals which are common causes of irritation.

Features

- Latex Free
- 100% Free of Fiber Glass
- Strong and Fluid Resistant Polypropylene Material
- High Bacterial Filtration Efficiency Test (BFE)
- Non-sterile
- Single Use Only
- Made in China/Mexico

Packaging Details

- Size: One Size
- Inner Packaging: 50 Pieces/Box
- Case Quantity: 12 Boxes/Case
- Case Dimensions: 310cm x 190cm x 220cm

Quality Standards

Testing Methods

- BFE: 97% Bacterial Filtration Efficiency (Nelson Lab, USA)
- Meets & Exceeds ASTM F2100-Level I

Specification

Item #711-3

- Type: 3-play with ear loop
- Color: Blue
- Material
 - Upper Layer: Blue Spunbound Polypropylene
 - Middle Layer: Melt Blown non-woven cloth
 - Inner Layer: White Spunbound Polypropylene
- Elasticity: Nylon soft stretch
- Size:
 - Width Across Face: 17.5cm +/- 0.3cm
 - Depth Pleated: 9.0cm +/- 0.3cm
 - Ear loop: 18.0cm +/- 0.3cm
- BFE: 97% Bacterial Filtration Efficiency (Nelson Lab, U.S)
